ABOUT ME

Motivated Software Engineering undergraduate (8th semester) with hands-on experience in JavaScript Full Stack Development. Completed a NAVTTC-certified Full Stack Development program and developed multiple projects using modern web technologies. Seeking an internship to gain industry exposure, apply practical skills, and grow as a Full Stack Developer.

PROJECTS

Project Name: Electro Mart – E-Commerce Web Application

- **Description:** Built a MERN e-commerce application with authentication, product and cart management. Used MongoDB, Cloudinary, and Nodemailer for data, media, and email/OTP handling, with a responsive UI in Tailwind CSS and shadcn/ui, deployed on Vercel.
- **Technologies Used:** Postman, MongoDB Compass, Vercel & VScode

Project Name: Forever – MERN E-Commerce Web

- **Description:** Developed a MERN e-commerce application with product browsing, user management, and Stripe-based secure payments.
 - **Technologies Used:** React.js, Node.js, Express.js & MongoDB
-
